CSPS 2013: Senior Civil Service results

This report shows the scores from the Civil Service People Survey (CSPS) from 2009 to 2013 for those respondents who identified as members of the Senior Civil Service (SCS) or at an SCS equivalent level.

The People Survey covers a wider range of employees than just permanent Civil Servants; in the case of staff at an SCS level it also includes senior members of the diplomatic service, and senior military officers working in a civilian capacity. As at the end of March 2013 there were 4,340 civil servants at SCS equivalent level, of which 3,460 were part of the centrally managed Senior Civil Service.

The table below shows the SCS score for each of these 10 headline indicators.

Pages 3-8 show the benchmark score for each of the individual core questions.

Page 9 provides a brief technical overview of the survey and endnotes.

Technical notes

1. Except for the engagement index (see note 4) the result for each of the headline themes is calculated as the percentage of “strongly agree” or “agree” responses to all questions in that theme.
2. The change in score is calculated simply as the later year’s score minus the preceding year’s benchmark score. This calculation is based on the rounded figures published in this report.
3. The employee engagement index is calculated as a weighted average of the responses to the five employee engagement questions (B50-B54) and ranges from 0% to 100%. A score of 0% represents all respondents giving a rating of “strongly disagree” to all five questions. A score of 100% represents all respondents giving a rating of “strongly agree” to all five questions.
4. The scores for questions B01-B62 are based on the proportion responding “strongly agree” or “agree”. For questions D01-D02, E01 and E03 the score is based on the proportion responding “yes”.
5. Phrases in square brackets (e.g. [my organisation]) are used in the core questionnaire to indicate where participating organisations use the relevant local terms (e.g. 'the Cabinet Office' in place of [my/your organisation] or 'Senior Civil Servants' in place of [senior managers]).
6. Question B57 was added to the core questionnaire in 2011 and therefore no benchmark score for 2009 or 2010 is available.
7. In 2012 five new questions were added to the Civil Service People Survey to measure further aspects of the culture of our organisations that were not already covered by the questionnaire.
8. Question C01 has four response options and respondents can only select one of the four options.
9. Following a pilot in 2011, the 2012 Civil Service People Survey questionnaire also included the four subjective wellbeing questions asked by the ONS in the Annual Population Survey as part of their Measuring National Wellbeing programme.
10. Question E02 was only asked to those who had responded “yes” to question E01, similarly question E04 was only asked to those who had responded “yes” to question E03. The scores for questions E02 and E04 are the number of responses to that category as a percentage of those who had said “yes” to the previous question. As respondents were able to select more than one category the scores may sum to more than 100% and the proportions for individual categories cannot be combined.
11. In CSPA 2010 an additional seven response options were added to question E02, therefore there is no data for these categories for 2009. The addition of these categories also means that the results for “Any other grounds” cannot be compared between 2009 and 2010.
